

PECB Certified ISO 31000 Lead Risk Manager

The ISO 31000 Lead Risk Manager training course helps participants develop their competences to support an organization create and protect value by managing risks, making decisions, and improving performance using the ISO 31000 guidelines.

Why should you attend?

The ISO 31000 Lead Risk Manager training course equips participants with the knowledge and skills to lead, implement, and continuously improve risk management frameworks based on ISO 31000 guidelines. Through this course, participants will learn how to support their organization in identifying, assessing, and managing risks effectively, helping to protect value, enhance decision-making, and improve performance across business operations. Furthermore, it provides guidance on the selection and application of techniques for assessing risks in a variety of contexts.

Upon completion of the training course, participants can sit for the exam and apply to obtain the “PECB Certified ISO 31000 Lead Risk Manager” credential. The credential demonstrates that the participant possesses the theoretical and practical knowledge and professional capabilities to support and lead risk management processes based on ISO 31000 guidelines and best practices in this field.
